

### LINUX ARCHITECT · SRE/DevOps Engineer

68, Parkwijklaan, 1326 BT, Almere

🛘 (+31) 686234192 | 🔀 sunil@sunil.cc | 🖸 sunilsankar | 🛅 sunilsankar

# Summary.

Redhat Certified Architect with about 15 years of Experience. Subject Matter Expert in Cloud/Infrastructure/Monitoring/Devops/SRE. Interested in devising a better problem-solving method for challenging tasks, and learning new technologies and tools if the need arises.

## Skills

**DevOps** AWS, Docker, Kubernetes, Vagrant, Packer, Terraform, Jenkins, Gitlab, Openshift, AnsibleTower

Virtualization Xen, Vmware, KVM

**Monitoring** Nagios, Op5, Prometheus, Grafana

Scripting Bash, Python

Configuration Management Puppet, Ansible

**Cloud** AWS, Openstack, gcloud, Azure

BPM Pega

# **Certifications**

Certified Kubernetes Administrator

- \* Azure Solutions Architect Expert
- \* Certified Kubernetes Application Developer
- \* Redhat Certified Architect
- \* AWS Certified Solutions Architect Associate
- Vmware Certified Professional
- \* Red Hat Enterprise Security: Network Services
- \* Red Hat Enterprise Virtualization
- \* Red Hat SELinux Policy Administration
- \* Red Hat Certified System Administrator in Openstack
- \* Red Hat Certified Directory Service and Authentication
- \* Red Hat Certified Specialist in Ansible Automation

# Experience \_\_\_\_

## TATA CONSULTANCY SERVICES

### Project - Rabobank

TECHNICAL ARCHITECT

• Setting up Azure Pipelines and troubleshooting

- Building and Managing Sandbox environments for Riskshield Developers
- Building ansible custom modules for Riskshield platform
- Using Molecule docker podman to build ansible roles
- Providing L3 level support for Linux Platform
- Lifecycle management of custom docker images

### **HCL TECHNOLOGY**

# Project - ING Bank

SENIOR TECHNICAL SPECIALIST

- Handling escalations and enhancement for Pega Platform.
- Autoremediation using Prometheus and Ansible.
- Work on improving the Pega Platform.
- Doing a POC on Openshift.
- SME for Linux, Ansible and Pega administrator
- · Lifecycle management of Redhat and Pega.

· Automating Patch management.

Utrecht, Netherlands

Mar 2022- till date

Amsterdam, Netherlands Oct 2021 - Mar 2022

OCTOBER 31, 2022 SUNIL SANKAR · CV

**Project - ING Bank** Amsterdam, Netherlands

**TECHNICAL SPECIALIST** 

- Automating End to End Deployment of Pega Platform using ansible in Onprem and Cloud.
- Pega migration and upgrade from datacenter to cloud
- · Complete end to end automation of Pega installation and monitoring.
- Provision infrastructure using terraform ansible
- Created oneclick deployment of Pega Installation and deployment with Ansible Tower.
- Managing and Maintaining Linux Infrastructure for Pega Platform.
- Automated monitoring using prometheus and grafana.
- Building CI/CD pipeline for pega deployment.
- Handling escalations and enhancement to the Pega Platform.
- L3 Level Support for Linux, ansible
- Manage the team and handle the escalations related to Pega Platform.
- Coordination with Network team and maintain high availability of Infrastructure across regions.
- Performing regular DR tests and lifecycle management of Linux Platform.
- Working on Kubernetes deployment for Pega
- Setup monitoring with Prometheus and Grafana
- Working on Azure Pipelines to deploy pega artifacts, ansible jobs and kubernetes deployment
- · Data migration from onprem to Cloud

### COGNIZANT TECHNOLOGY

**Project - NN Insurance** Den Haag, Netherlands

MANAGER INFRA OPS SPECIALIST · Work closely with Project Management and Life cycle management teams to improve the security of Linux operating systems.

- Instrumentation of new puppet modules.
- Work on improving the build process of rpms.
- Handling Escalations and team management.
- · SME for Linux and Puppet
- Automating regular tasks via scripts and puppet.
- · Lift and shift of Vms from datacenter to the cloud.

#### **Project - NN Insurance** Den Haag, Netherlands

- Building and maintaining puppet infrastructure.
- Managing the gerrit server.
- Day to day troubleshooting of operating system.
- SPACEWALK, conceiving system and management policy, system and applications installation, and update.

**Project - Comcast Cables** Chennai, India

SENIOR ASSOCIATE Nov 2013 - July 2015

- Instrument new tools, plugins for monitoring cloud, physical Infrastructure, scripts for automation, dashboards for NOC/Management teams Design and Implement Distributed and Load Balancing Monitoring Infrastructure using Nagios, Op5
- · Instrument self-healing scripts for monitoring multiple Nagios instance and recovery them without the need of a on-call engineer.
- Implement best-in-class Monitoring tool based on the type of monitoring needs. **Project - Comcast Cables** Chennai, India

TECHNICAL LEAD

• Managing a virtual farm of around 10000 Vms and also providing monitoring solution

- Automated scripts for sending alerts
- Providing Tuning and enhancement of Performance enhancement for monitoring tools.
- Define and implement monitor procedures for all Windows servers using Nagios
- Configured load balancing and distributed monitoring

## PRECISION INFOMATICS

SENIOR SYSTEM ENGINEER

## **Project - TransUnion International**

Chennai, India

Aug 2011 - Nov 2013

Jan. 2018 - Oct 2021

Jun 2016 - Dec 2017

• Handled build deployment for CIBIL Applications.

- · Point of Contact for Mortgage application CIBIL facing.
- Managing and Maintaining of Vmware Infrastructure.
- Configure Packages from source to prevent the packages from being OS dependent.
- Tuning the Virtual Servers for optimum performance.
- Implementing and fixing security finding on Linux Platform and application server.

## Project - D & B TransUnion Analytics and Decision Services Private Limited.

Chennai, India Mar 2008- Mar 2010

- Adding scripts and enhancments for both windows and linux platform.
- Managing and Maintaining of Infrastructure in Vmware.
- Patching windows and linux servers.

ASSOCIATE CUSTOMER SUPPORT ENGINEER

- · Building and maitaining postfix mail server.
- · Configuring and maintaining Nagios server.
- Building custom plugins for Nagios server.

OCTOBER 31, 2022 SUNIL SANKAR · CV

Mar 2010- Aug 2011

### **BEYCIX CORPORATION**

### **Project - Internal IT**

System Administrator

- Handled postfix mail server
- Managing Active directory users
- Handled network related issues

Chennai, India Mar 2007- Mar 2008
