# Sunil Sankar

Linux Architect · SRE/DevOps Engineer
68,Parkwijklaan, 1326 BT , Almere
(+31) 686234192 | sunil@sunil.cc | sunilsankar | sunilsankar

## Summary

Redhat Certified Architect with about 18 years of Experience.Subject Matter Expert in Cloud/Infrastructure/Monitoring/Devops/SRE. Interested in devising a better problem-solving method for challenging tasks, and learning new technologies and tools if the need arises.

## Skills

| | |
|---|---|
| **DevOps** | AWS, Docker, Kubernetes, Vagrant, Packer, Terraform, Jenkins, Gitlab, Openshift, AnsibleTower |
| **Virtualization** | Vmware, KVM |
| **Monitoring** | Nagios, Op5, Prometheus, Grafana |
| **Scripting** | Bash, Python |
| **Configuration Management** | Puppet, Ansible |
| **Cloud** | AWS, Openstack, gcloud, Azure |
| **BPM** | Pega |

## Certifications

* Certified Kubernetes Administrator
* Azure Solutions Architect Expert
* Certified Kubernetes Application Developer
* Redhat Certified Architect
* AWS Certified Solutions Architect – Associate
* Vmware Certified Professional
* Red Hat Enterprise Security: Network Services
* Red Hat Enterprise Virtualization
* Red Hat SELinux Policy Administration
* Red Hat Certified System Administrator in Openstack
* Red Hat Certified Directory Service and Authentication
* Red Hat Certified Specialist in Ansible Automation

## Experience

### Tata Consultancy Services

**Project - Rabobank** — *Utrecht, Netherlands*

Technical Architect - DevOps Engineer — *Mar 2025- till date*

- Deploying application on Vmware Environments
- Setting up Azure devops pipeline for application deployment
- Managing and Automation of Certificates and firewalls
- Building complete workflow on Ansible for application deployment
- Migrating from Aws to Onprem environment
- Scripting and automation using Python
- Providing L3 level support for Linux Platform
- Lifecycle management of custom docker images and ansible roles
- Following all the SRE best practices

**Project - Rabobank** — *Utrecht, Netherlands*

Technical Architect - Cloud Engineer — *Mar 2023- Mar 2025*

- Deploying application on azure app service
- Setting up Azure devops pipeline for application deployment
- Setting up Azure Infra for Kubernetes
- Building and Managing Sandbox environments for Riskshield Developers
- Application deployment via ansible for kubernetes
- Migrating Onprem to Azure AKS Cluster
- Providing L3 level support for Linux Platform
- Lifecycle management of custom docker images and AKS upgrades

**Project - Rabobank** — *Utrecht, Netherlands*

Technical Architect — *Mar 2022- Mar 2023*

- Setting up Azure Pipelines and troubleshooting
- Building and Managing Sandbox environments for Riskshield Developers
- Building ansible custom modules for Riskshield platform
- Using Molecule docker podman to build ansible roles
- Providing L3 level support for Linux Platform
- Lifecycle management of custom docker images

## HCL Technology

### Project - ING Bank
*Amsterdam, Netherlands*

Senior Technical Specialist
*Oct 2021 - Mar 2022*

- Handling escalations and enhancement for Pega Platform.
- Autoremediation using Prometheus and Ansible.
- Work on improving the Pega Platform.
- Doing a POC on Openshift.
- SME for Linux , Ansible and Pega administrator
- Lifecycle management of Redhat and Pega.
- Automating Patch management.

### Project - ING Bank
*Amsterdam, Netherlands*

Technical Specialist
*Jan. 2018 - Oct 2021*

- Automating End to End Deployment of Pega Platform using ansible in Onprem and Cloud.
- Pega migration and upgrade from datacenter to cloud
- Complete end to end automation of Pega installation and monitoring.
- Provision infrastructure using terraform ansible
- Created oneclick deployment of Pega Installation and deployment with Ansible Tower.
- Managing and Maintaining Linux Infrastructure for Pega Platform.
- Automated monitoring using prometheus and grafana.
- Building CI/CD pipeline for pega deployment.
- Handling escalations and enhancement to the Pega Platform.
- L3 Level Support for Linux, ansible
- Manage the team and handle the escalations related to Pega Platform.
- Coordination with Network team and maintain high availability of Infrastructure across regions.
- Performing regular DR tests and lifecycle management of Linux Platform.
- Working on Kubernetes deployment for Pega
- Setup monitoring with Prometheus and Grafana
- Working on Azure Pipelines to deploy pega artifacts, ansible jobs and kubernetes deployment
- Data migration from onprem to Cloud

## Cognizant Technology

### Project - NN Insurance
*Den Haag, Netherlands*

Manager Infra Ops Specialist
*Jun 2016 - Dec 2017*

- Work closely with Project Management and Life cycle management teams to improve the security of Linux operating systems.
- Instrumentation of new puppet modules.
- Work on improving the build process of rpms.
- Handling Escalations and team management.
- SME for Linux and Puppet
- Automating regular tasks via scripts and puppet.
- Lift and shift of Vms from datacenter to the cloud.

### Project - NN Insurance
*Den Haag, Netherlands*

Senior Associate
*July 2015 - June 2016*

- Building CI/CD pipe line with gitlab.
- Building and maintaining puppet infrastructure.
- Managing the gerrit server.
- Day to day troubleshooting of operating system.
- SPACEWALK,conceiving system and management policy,system and applications installation, and update.

### Project - Comcast Cables
*Chennai, India*

Senior Associate
*Nov 2013 - July 2015*

- Instrument new tools, plugins for monitoring cloud, physical Infrastructure, scripts for automation, dashboards for NOC/Management teams
- Design and Implement Distributed and Load Balancing Monitoring Infrastructure using Nagios, Op5
- Instrument self-healing scripts for monitoring multiple Nagios instance and recovery them without the need of a on-call engineer.
- Implement best-in-class Monitoring tool based on the type of monitoring needs.

### Project - Comcast Cables
*Chennai, India*

Technical Lead
*Aug 2011 - Nov 2013*

- Managing a virtual farm of around 10000 Vms and also providing monitoring solution
- Automated scripts for sending alerts
- Providing Tuning and enhancement of Performance enhancement for monitoring tools.
- Define and implement monitor procedures for all Windows servers using Nagios
- Configured load balancing and distributed monitoring

## Precision Infomatics

**Project - TransUnion International** *Chennai, India*

Senior System Engineer *Mar 2010- Aug 2011*

- Handled build deployment for CIBIL Applications.
- Point of Contact for Mortgage application CIBIL facing.
- Managing and Maintaining of Vmware Infrastructure .
- Configure Packages from source to prevent the packages from being OS dependent.
- Tuning the Virtual Servers for optimum performance.
- Implementing and fixing security finding on Linux Platform and application server.

**Project - D & B TransUnion Analytics and Decision Services Private Limited.** *Chennai, India*

Associate Customer Support Engineer *Mar 2008- Mar 2010*

- Adding scripts and enhancments for both windows and linux platform.
- Managing and Maintaining of Infrastructure in Vmware.
- Patching windows and linux servers.
- Building and maitaining postfix mail server.
- Configuring and maintaining Nagios server.
- Building custom plugins for Nagios server.

BEYCIX Corporation

**Project - Internal IT** *Chennai, India*

System Administrator *Mar 2007- Mar 2008*

- Handled postfix mail server
- Managing Active directory users
- Handled network related issues

## Education

**Birla Institute of Technology and Science** *Pilani, Rajasthan*

Mtech Software Engineering *2015*

**KCG College of Technology(Anna University)** *Chennai, TamilNadu*

BE in Electronics and Communication *2007*

## Honors & Awards

| | | |
|---|---|---|
| 2022 | **Achievers League**, Hcl Technology | *Netherlands* |
| 2021 | **Achievers League**, Hcl Technology | *Netherlands* |
| 2021 | **Sales Hero**, Hcl Technology | *Netherlands* |
| 2019 | **Top Performer**, Hcl Technology | *Netherlands* |
| 2018 | **Consistent Performer**, Hcl Technology | *Netherlands* |
| 2014 | **Associate of the quarter**, Cognizant Technology | *India* |
| 2013 | **Customer Champion**, Cognizant Technology | *India* |
| 2011 | **Script Automation**, Precision Infomatic | *India* |
